SAM★INK® ECO-Ultra Inks. Prints that will Weather the Harshest Conditions. Formulated for durability, SAM★INK® ECO-Ultra Ink features superior scratch resistance under the most aggressive conditions, which is critical to the production of banners and other graphics. Revolutionary SAM★INK® ECO-Ultra is more efficient than ever, providing rich ink density for bright vivid prints, quicker drying time, and no-odor or fumes to manage. In addition, the improved SAM★INK® ECO-Ultra Ink is tougher than ever before and boosts the performance of your Mutoh's ValueJet printers.

SAM★INK® ECO-Ultra Inks provides fast drying time & aggressive adhesion. SAM★INK® ECO-Ultra inks produces quick drying graphics that adhere more aggressively to a wide variety of substrates that can be handled right off the printer, increasing productivity. Faster drying time also promotes long production runs, even in high speed mode.

End-users will notice the outstanding image quality. The ability of this ink to provide you with your ideal color is unmatched. Due to a wider color gamut and high ink density, SAM★INK® ECO-Ultra inks delivers exceptionally

bright, vivid colors in every print. In addition, prints are still durable up to three years outdoors without lamination.

SAM*INK® ECO-Ultra inks are virtually odorless. SAM*INK® ECO-Ultra inks require no special ventilation or environmental equipment. Unlike other inks, SAM*INK® ECO-Ultra inks are safe to use and odorless, which ensures a comfortable working environment. Get rid of those inks that smell and make you and your staff light-headed. With this ink, your work station will be safe.
